

Certificate of Conformance

This document certifies that the product contracted by the customer identified below has, to the best of our knowledge, been manufactured, processed, inspected, and tested in accordance with the requirements inherent to the quote and the customer provided 3D CAD file. This declaration relies on the specifications, and/or labeling, and/or shipping documentation, and/or certifications provided by suppliers without independent verification by the certifier. The order listed below has been manufactured and inspected by contracted partners of Protolabs Network, a fully owned Protolabs subsidiary, in accordance with Protolabs Network Quality Management System. When deemed necessary, parts might also be inspected via sampling by Protolabs Network. Inspection and test results signify that the items delivered are genuine, acceptable and in conformance with said requirements. Additional data, not enclosed with this shipment, is maintained on file and may be available upon request.
